

# MUELLER® Centurion® Fire Hydrant with Integral Storz Pumper Connection

Quick-Connect/Full Pressure Rating

**N**ow any Mueller Centurion Hydrant, traditional or modern style, can be ordered with an integral storz connection on the pumper nozzle. The nozzle can also be ordered separately to retrofit hydrants in the field.

The storz connection allows the fire department to connect its pumper hose to the hydrant with a quick, quarter-turn action. The action is fast and smooth so firefighters can get to their tasks quickly without the thread alignment, cross threading, or leakage problems sometimes associated with threaded connections.

The storz options is available for 5" pumper nozzles on any

**NEW  
OPTIONS**

Centurion 200™, 250™ or Modern hydrant. Hydrants with the storz connection retain their published pressure rating and compliance with AWWA Standard C502. (Currently, storz style connections are not UL listed or FM approved, but are covered by NFPA-1963 Fire Hose Connection Standard.)

To order, specify the 5" storz option for your hydrant pumper connection. For more information, contact your local authorized Mueller Distributor, your Mueller Sales Representative, or call our Customer Service Center at 1-800-423-1323.
